

**Directions to Prof. Furlong's lab
University of Washington
Seattle, WA**

- From I-5, take the NE 45th St. exit (NE of downtown Seattle) and drive east on NE 45th St.
- After about four lights, turn right (south) on 15th Ave NE and stay on 15th Ave all the way down to the bottom of the hill (through a few lights). Cross NE Pacific. You will feel like you have driven too far, but keep going. The road will bend to the left and take you to a parking garage for the University Hospital.
- Go to the kiosk and tell them that you have an appointment to see Dr. Furlong in Medical Genetics. They will charge you \$15 (some of which will be refunded when you leave) and tell you to park in S1.
- Park at the end of the lot nearest to where you enter, and leave the receipt on your dash.
- Go through the hospital entrance near the rotunda. It is located near the parking booth you came through, just north of the parking lot (ask anyone for help).
- Call Prof. Furlong on the "wall phone" or your cell (206-543-1193) and someone will come and meet you and escort you to the blood draw clinic.
- Bring your completed paperwork with you (signed consent form and completed questionnaire), all provided on the AFA website. You must discuss the consent form with Prof. Furlong, Dr. Paul Baker, or Dr. Toby Cole to ensure that the team has your "informed consent" before they can accept you as a participant in their study.
