Ebola Guidance for Airlines

Given worldwide concern with Ebola, a viral hemorrhagic fever that has killed thousands in Africa during the ongoing outbreak, authorities such as the CDC, OSHA, and WHO are providing ongoing updates and issuing guidance to various stakeholders. Below are several useful links to information that may help protect you, your families, friends, coworkers, and the traveling public.

CDC - Ebola Guidance for Airlines [see CDC’s Infection Control Guidelines for Cabin Crew Members on Commercial Aircraft for more information on practical measures cabin crew members can take to protect themselves, passengers, and others.]

CDC - Interim Guidance for Monitoring and Movement of Persons with Ebola Virus Disease Exposure

CDC - Ebola Management Algorithm for Evaluation of the Returned Traveler

CDC - Ebola Outbreak: Airport, Border, & Port of Entry Resources for Use by International Partners [includes an Entry Travel Health Alert Notice - Arriving from West Africa and a Travel Health Alert Notice - Plane or Airport Contact]

OSHA - Ebola page, Flight Attendant/Cabin Crewmembers Health and Safety and Bloodborne Pathogens Standard factsheet (PDF)

US State Dept. - Ebola in West Africa

CDC - Ebola Hemorrhagic Fever

CDC - Traveler's Health [While there is significant concern over the spread of Ebola, links to information on other current disease outbreaks are also listed on this page, including Polio, Chikungunya, Measles, Malaria, and Dengue (as of 7/30/14)]

Embassy of the United States Monrovia, Liberia - Messages for U.S. Citizens

WHO - The latest Disease Outbreak News (DONs) updates
